

Project

The Distributed Digital
Image Archive for
Research and Studies

prometheus is a digital image archive for art history, archeology and other disciplines concerned with visual culture. More than 1,300,000 high-quality images from more than 80 different databases are available via a single interface in a legally secured context.

The spectrum of images ranges from sculpture and manuscript illumination to architecture and video, from prints and installation to painting and decorative arts, from charters and frescoes to textiles and design.

prometheus at a glance:

Search

Search more than
1,300,000 images
